

# Acklay and Nexu v1.0

By Scott Hagarty

This deck is for the pair of arena beasts Acklay and Nexu. This deck was built in conjunction with another arena beast, Reek. The two decks are intended to be played together in team games and masterplay, although each works just as well on its own. An interesting movie recreation duel would be a team of Acklay and Nexu with Reek against a team of Anakin and Padme with Obi-Wan Kenobi. Acklay uses the Brown basic set, while Nexu uses the minor melee set. Nexu doesn't provide a lot of power, but his attack support and non-actions are crucial to pull defense so Acklay's Claw Stabs can connect for the win. Nexu will go down quickly with only 9HP, but Acklay has plenty of tricks up his proverbial sleeve. As always, print the deck directly to card stock. Turn the sheet over and print the card backs on the reverse side. Cut out the cards and enjoy!
